

**Philadelphia Safe Sleep Awareness For Every Well Newborn (S.A.F.E.) Program  
Module 1 Evaluation  
"Evidence-Based and Best Practices for Safe Sleep with Newborns"**

	<b>Strongly Disagree</b>	<b>Disagree</b>	<b>Agree</b>	<b>Strongly Agree</b>
<b>Content</b>				
1. The content helped me achieve the stated learning objectives.				
2. The content stimulated my interest in the topic.				
3. I learned new content I did not already know.				
4. The level of difficulty of the content was appropriate for my level of clinical experience.				
<b>Format</b>				
5. The content was well organized.				
6. The learning module was easy to navigate.				
7. The time I spent completing the module was appropriate for learning the activity's material.				
<b>Learning Process</b>				
8. The evidence-based resources and references facilitated my learning.				
9. The self-assessment questions strengthened my understanding of the content presented in this activity.				
<b>Overall Impressions</b>				
10. This learning activity increased my knowledge of the content presented.				
11. This learning activity helped me improve my confidence in practicing safe sleep for infants.				
12. This learning activity contributed to my overall understanding of safe sleep for infants.
